

WEBINAR

As global trade architectures continue to be reshaped by new bilateral and multilateral agreements, shifting supply chains, evolving regulatory frameworks, and geopolitical realignments, India is actively strengthening its trade partnerships with multiple countries.

In this rapidly changing environment, it is especially important for the Home and Personal Care (HPC) industry to closely track global developments, given its strong integration with global supply chains, raw material dependencies, regulatory standards, and export opportunities.

To support the Home and Personal Care industry and broader stakeholders in navigating these shifts, **IHPCIA** is pleased to host an upcoming knowledge-focused webinar:

IHPCIA Webinar

Changing Global Trade Scenarios – Impact on Indian Industry

Speaker:
**Dr Badri
Narayanan
Gopalkrishnan**

Date:
**Friday,
12 June 2026**

Time:
**11:00 AM –
12:00 PM (IST)**
